THE FALL OF PARIS.

LONDON, May 23.—A dispatch from Versailles of Monday evening says: The Versailles troops have taken possession of the Tuileries, which is burning, and of the Palais Royal, which is burning. The Chamber of Deputies, the Council of State, the Ministry of Finance, the Ministry of Marine, and the Palais de Justice are burning. The Versailles troops have captured the Ministry of Marine, the Ministry of Finance, the Palais de Justice, and the Palais Royal. The Communists have set fire to the Tuileries, and made a last stand in the Place de la Concorde, but were driven from it by the Versailles troops. The Communists have set fire to the Madeleine, and are firing the Place Vendôme. The Versailles troops have taken the Place Vendôme, and are now in the Place de la Concorde, but are shelled by the Communists from the Champs Elysées. The Versailles troops have taken the Place de la Bourse, the Place de la Madeleine, and the Place de la Concorde, and are now in the Place Vendôme. MONETARY.

Treasury Bureau, May 23.

The policy of Philadelphia and Baltimore in organizing a great railroad consolidation to be in those cities has set them capitalists to thinking of the necessity of an equal effort on papers to a city the attention of the public to the fact that there is a chance of railroad projecting between the lower Canadian and the West, representing a stock of $100,000,000 to $200,000,000 of stock and bonds, which is owned mostly by small capitalists. It is proposed that these stocks and bonds shall be exchanged for bonds issued in some manner so as to consolidate the ownership of railroad transportation, in the West, with the ownership of the railroad property that represents the lion's share of the profits of the business of the trade of the West. The Rock Island and Pacific Railroad Company, which was organized for the purpose of consolidating some existing short roads, and building some new ones, in Illinois, Iowa, and Missouri, and has not yet reached the line to the Rocky Mountains, is a case in point. It has not yet even reached the line to the Rocky Mountains, for which the Pacific property under was accomplished, and yet the stock of the original Rock Island Company, which is a line to Albany, but the road is crowded and heavy grades, and the road is not a good one, but the stock of the Rock Island Company, which is a continuous road to Lake Ontario to Niagara Falls, there connected with the Great Western of Canada and the system of Jay Gould, and the Rock Island, Central and Chicago, Burlington & Quincy to Omaha. A company organized and largely owned in those lines organized and largely owned in those lines, and connected with them from time one to time, and if their new connection with the Pacific Railroad Company is carried out, the stock of the organization of which should be in the hands of Boston, and do for it what the Pennsylvania Company is doing for Philadelphia, and the Baltimore & Ohio for Baltimore, and the Baltimore & Ohio for Baltimore, and the Baltimore & Ohio for Baltimore
